

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFATORY NOTE.

IN view of a contemplated Bibliography of the Shires of Aberdeen, Banff, and Kincardine, the titles of such works, printed or published in the district, or related to it by subject or authorship, as I have been able to examine or trace, are presented on the following pages in the briefest form consistent with identification. Extensive though the list is, it is necessarily very incomplete, lacking items overlooked by, or unknown to, the Editor; with like obviousness it must be inaccurate at various points. To remedy, if possible, these unavoidable defects, the present Hand-list has been published, the hope being that those who can, directly or indirectly, supply them will do so by communicating with the Editor. Additions or corrections relating to works printed or published in the district, or directly connected with its history, are especially desired.

A. W. ROBERTSON.

PUBLIC LIBRARY,
ABERDEEN, *November, 1893.*

. An asterisk prefixed to a title in the List is meant to indicate that the Editor has not been able to examine for himself a copy of the work referred to, and that he will be obliged to any one who will give him the opportunity of doing so.

E + B 30 Sept 1942

HAND-LIST OF BIBLIOGRAPHY
